occasion to go for an heir out of the line

The lineage of the Queen herself is right royal, through a chain of descend-ants for eight hundred years, from Wil-liam the Conqueror. One step further back would take us into a morass, but

downwards the record is clean. She is

the heir of the Plantagenets, Tudors, Stuarts, and the Guelphs, the four royal houses of England in order;

age of the daughter of James I with the Elector Frederick, of Bavaria, and of her daughter Sophia with the Elector,

who became King of Hanever, the father

the descendants of Charles L came be-

fore those of his sister, (married in Germany,) and of these the eldest stock is

represented by the descendants of his daughter Henrietta, married in France. The head of that branch now is Victor

Emanuel, King of Italy.

It follows, oddly enough, that if the order of primogenitar, had been strictly followed in the inheritance of the British crown, Victor Emanuel might have been thinder the country of the primogenitary of the crown, Victor Emanuel might have been thinder the crown of the crown of

this day King of England, and in another generation a Bonaparte been the legitimate successor. We say, might have been, because we do not know how

many female heirs have been excluded

in the Savoy line by the continental law

It is also notable that the German fam-

ily, which, by marriage, brought the name of Guelph into the royal house of England, claims a descent also from William, the Conqueror. Henry, the Lion, of Saxony, married an English princess, the grand daughter of William, and from her descended the Guelphs and Brunswicks who came back into England as monarchs six hundred years afterwards.

monarchs six hundred years afterwards.

If there be anything in pure blood and long descent through houses of kings and conquerors, the children of Victoria have a title to all these distinctions and privileges above any other Englishman,

and have corresponding obligations to maintain all that is embraced in the proud sentiment: noblesse oblige. With the dissolute sons of George III, those considerations had but little sway, and

the blood royal was feared to have degen-erated into a very plebian puddle. Il-lustrious descent only made vice more notorious and its impunity more mis-

chievous. Royal dukes were notorious

profligates and cheats, and immense in-fluence was needed to protect one or more of them from the legal penalty for crimes. In this age, and with popular intelligence so far advanced, no society would endure again a brood of princes such as were some of those who rioted

during the regency. There has been a great change since, in the tone of public morals, which would make such excesses

It is impossible to inflict upon Davis any disgrace the Southern people will not feel extended to them; and even if their reason can be brought to say he sinned, their conscierce will compel them—if compulsion be needed—to say "his sin was our sin;" and mothers will whisper to their children of him as French royalist mothers whis-pered to theirs of Louis XVI. > A Story of Two Loves-A Pelish Husband Deserts his Wife and is Arrested for Some thirteen years since, one Henry Witkouski, living in the suburbs of War-saw, Poland, deserted his wife and two infant children, and came to this country, taking up his residence at first in New York city, and proceeding thence to St. Louis. In the course of a year or two the wife had collected enough money to bring herself and children to the New having left. She waited for a year or two, trying to discover his whereabouts, without success. Then, believing that he must be dead, she decided upon marrying a second time, and did so, after procuring a divorce. In company with her husband, Jacob Franklin, she then came to this city, bringing with her the two children before mentioned. Not long since she discovered that the hus-band, whom she had supposed dead, was living in this city, having married a very pretty young German woman. Quite recently her two children, who had been away in the northern part of the State, failed to return at the appointed time, and her second husband immediately

It may be answered that treason will be punished, but I cannot see upon what principle this side of the New Testament the death of one man can be made to atone for the crime of eight millions, every one of whom were equally guilty with him. As well ascribe to one man in the North all the glory of putting down the rebellion, as heap upon one man in the South all the infamy of organizing it, and carrying it forward to its end. Mr. Lincoln freely confessed that he but followed public sentiment in all he did in the North; and Davis did no more in what he did in the South. Suppose, then, Davis were hung to-mor-row, would anybody feel better? Would

I think not. One out of eight millions guilty of treason would be punished, as they all deserve, according to the letter and spirit of the law.
